When Every Code Counts.

Professional Coding Solutions

**Coding, compliance and
educational programs for
physicians and their staff.**

■ Professional Coding Solutions

As today's healthcare providers struggle to keep pace with a dizzying array of medical codes and near constant reimbursement rule changes, knowledgeable, experienced medical coding professionals can make all the difference. Yet recruiting, developing, and retaining the right coding talent can be a challenge.

With increased regulatory scrutiny, providers simply cannot afford ineffective or non-compliant coding. Faced with a nationwide shortage of qualified coding professionals, many physician groups are turning to The Coding Source for unsurpassed accuracy and exceptional results.

■ Comprehensive Coding Services

Drawing upon our roots in training and education, The Coding Source provides a full range of services including:

MEDICAL CODING

Because we understand the challenges faced by providers accustomed to CPT coding, The Coding Source is uniquely positioned to help medical practices survive – and thrive – in a multi-specialty environment. We specialize in Evaluation and Management services, as well as surgical coding in all specialties.

To ensure optimum speed and precision, we match coders to clients based on their expertise within the clients' specialty. Working on-site or remotely, our coders seamlessly integrate with clients' staff, quickly familiarizing themselves with their practice, identifying trends and recommending services designed to accelerate the revenue cycle or improve compliance. The result is a history of creating long-term relationships with measurable results.

COMPLIANCE MONITORING

As regulatory requirements become more stringent, providers who implement a focused compliance program around documentation and coding practices gain a competitive advantage. From measuring coding accuracy through baseline coding audits and annual chart reviews to developing a targeted documentation and coding compliance program and policies, our seasoned healthcare professionals will create a sustainable and affordable solution that ensures the organization meets or exceeds its compliance requirements while improving accuracy and efficiency.

Our services include:

- Physician chart reviews and audits
- Individualized post-review analysis and training
- Group educational sessions
- Post-training chart reviews and audits
- On-site Shadowing audit services

PHYSICIAN AND STAFF TRAINING

As part of an ongoing compliance program, monitoring and training are necessary components of daily operations. In addition to audit-related training services, The Coding Source offers a wide range of training to improve revenue capture while minimizing risk.

Our experienced staff can create a customized program for any medical group, coding department, or faculty practice plan on any of the following topics:

- General coding updates/refreshers
- Specialty-specific coding issues
- E & M documentation guidelines
- Consultations guidelines
- ICD-9 coding accuracy
- CMS and OIG guidelines
- CPT documentation and coding

■ Optimize Revenue, Reduce Risk

Founded in 2002 to provide training and ongoing education to coding professionals, The Coding Source helps provider organizations improve revenue capture, increase efficiency and reduce compliance risk.

Through our nationwide network of highly skilled, specialized coders, we tailor a coding solution to fit the needs of clients ranging from small medical groups to large, multi-specialty clinics and academic practices. Our rigorous screening process, industry-leading training and mentoring, and quality assurance program ensure that each of our credentialed coders maintains up-to-date knowledge of the latest coding and compliance requirements.

**Take the next step toward a more profitable and productive practice today.
